-

PROGRAMMING LANGUAGES

- C# (Primary)
- C++

MEHBOOB AMJAD

UNITY DEVELOPER

Unity Game Developer with 1.5 years of experience building and shipping 3D mobile games. Built a complete game from scratch and actively maintained multiple live titles, delivering updates that improved gameplay, performance, and player retention. Skilled in Unity 3D, C# scripting, AI behaviors, level design, animation, and mobile optimization.

WORK EXPERIENCE

UNITY DEVELOPER

Jan 2025 – Present

Plasma IT Solutions

Developed a full 3D mobile game from scratch using Unity 3D and C#, taking ownership of core mechanics, AI systems, level design, and final release. Delivered regular updates across multiple live titles including Crazy Airport Chaos, Thief Vs Cops, 3D Car Parking, FPS Real Commando, and InTruck Driving, focusing on bug fixes and new content to maintain player engagement.

Designed and implemented NPC and enemy AI behaviors to enhance gameplay depth and challenge across various projects. Optimized mobile performance by reducing draw calls and improving asset pipelines, ensuring smooth gameplay on low- to mid-range devices. Created balanced and immersive level designs with progressive difficulty using Unity's toolset.

Some handled projects are:

- [Crazy Airport Chaos](#)
 - [Thief Vs Cops](#)
 - [Truck Simulator](#)
 - [FPS Real Commando](#)
